

NEWS RELEASE

NUVA Announces Licensing Agreements for Generics

April 15, 2014 – NUVA PHARMACEUTICALS INC. (the “**Company**” or “**NUVA**”) is pleased to announce that it has signed Cross Referencing Agreements (the “**CRAs**”) for prescription generic products for Canadian markets. These agreements cover about 48 prescription generic products and are for acute and chronic diseases.

The company has signed CRAs with three large pharmaceutical companies for multiple products in the prescription generic drug lines. NUVA will market and sell these new product lines under its own label.

NUVA is in the process of securing a Drug Establishment License (the “**DEL**”) from Health Canada. Upon receipt of the DEL, NUVA will start filing for regulatory approval for these products with Health Canada. NUVA will also initiate ordering, packaging and art work related processes for these generic products. NUVA expects to build its “NUVA” label Generic portfolio for Canadian Market apart from “NUVA” range of over the counter products.
